DATA SHEET

cables
DFA 2 - RC 100
assembled cable harnesses for test button function DFA 2-3 and DFA 2-4
Article number 09100151

Function

Pre-assembled lines to connect devices and accessory parts. These pre-assembled cables enable the DFA 2 to trip a residual current circuit-breaker. The ready-made cable set is used to adapt the test current to the rated residual current of the connected residual current circuit-breaker.

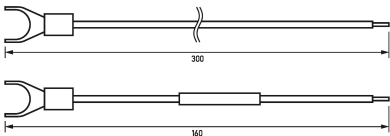

Notes

If the remote trip function is required, the appropriate cable set must be selected.

Technical Data

Technical Data	DFA 2 - RC 100
Series	DFA 2-RC
Accessories design	pre-assembled cable for test button function
for triggering current	100 mA
Rated voltage (AC)	230 V
	General data
Installation type	Device extension
Insulated	true
Outer diameter	3 mm
Length	160 mm
Weight	0.012 kg

Dimensions
