

## DATA SHEET

## for 24 V DC operating voltage

Article number 09500210

## Function

Impulse relays, also known as remote switches, are switching relays that switch on due to an electrical impulse at the control inputs and switch off due to another impulse. They are also known as "electrical non-holding contacts". The devices in series SIR were originally developed for use in the SI system. However, they can be used universally thanks to their 24 V impulse technology. This impulse relay design is suitable for mounting in electrical distribution boards. The monostable load relay SIR 16 M relay is a component of the SI system and can also be used as an installation relay for system-independent control functions.

## Features

low control power, powerful switching contact, compact design (1 module width unit), switch status indicator by LED

## Mounting

quick fastening to mounting rail

## Applications

The SIR 16 M is a universal circuit-breaker on the 230 V low-voltage mains. It is used in lighting systems, for example, as an additional auxiliary switch or signal switch.

Technical Data

| Technical Data | SIR 16 M |
| :--- | :---: |
| Series | SIR 16 M |
| Number of (n.o, n.c., change- <br> over) | 10010 |
| Manual operating mode possible | true |
| Operating voltage source | external power supply |
| Operating voltage (DC) | $24 \mathrm{~V}(21.6 \mathrm{~V} \ldots 26.4 \mathrm{~V})$ |
| Internal consumption | max. 0.1 W |
|  | Display Operation |
| Type | LED |
|  | Control input |
| Rated voltage (DC) | 24 V |
| Tolerance of rated voltage | $-10 \% \ldots 10 \%$ |
| Rated current | max. 4 mA |
| Bounce time of push buttons | 10 ms |
| Load factor | 1 ELF |
|  | Load circuit |
| Specification | Relay |
| Number | 1 |
| Rated voltage (AC) | 230 V |
| Rated current (AC) | 16 A |
| Load factor | 50 ALF |
| max. Output O1 Switchung | 3200 VA |
| capacity cos $=0,5$ |  |

| Technical Data | SIR 16 M |
| :--- | :---: |
| max. Output O1 Switchung <br> capacity cos $\mathrm{j}=1,0$ | 4000 VA |
| max. Output O1 rated power <br> fluorescent lamps duo-switching | 4000 VA |
|  | Screw-type terminal (Load circuit) |
| Clamping area | $0.4 \mathrm{~mm}^{2} \ldots .2 .5 \mathrm{~mm}^{2}$ |
| Cross section solid | 1 -wire: max. $2.5 \mathrm{~mm}^{2}$ |
| Cross section stranded | 1 -wire: max. $1.5 \mathrm{~mm}^{2}$ |
| Tightening torque | max. o.6 Nm |
| General data description | General data |
| Duty cycle | continuous operation |
| Operating position | any |
| Mechanical endurance | min. 100000 cycles |
| Electrical endurance | min. 400000 cycles |
| Ambient temperature | $-10^{\circ} \mathrm{C} \ldots 45^{\circ} \mathrm{C}$ |
| Housing type | Distributor housing |
| Mounting type | Mounting rail |
| Housing material | ABS resin |
| Protection class | IP40 |
| Width | 18 mm |
| Height | 85 mm |
| Depth | 65 mm |
| Installation depth | 58 mm |
| Width (modules) | 1 |
| Design requirements/Standards | EN $60669-1$ |
|  |  |
