Function

Optional devices apply as accessories to the main product classes. The commissioning package for Dupline is a combination with a reduced price, comprising the DDK 1 encoder and DTG 1 test device. The encoder facilitates addressing of Dupline modules such as the DSS key signal sensors. The test device allows the display and influence of signals from the Dupline bus.

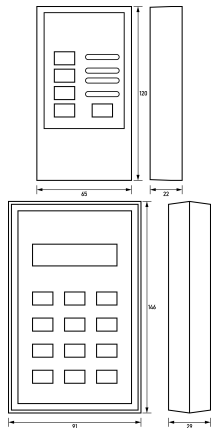

Features

Dupline commissioning set consisting of DDK 1 encoder and DTG 1 test device, DDK 1 for addressing Dupline modules, simplifies troubleshooting on the Dupline bus
