#### Function

Optional devices apply as accessories to the main product classes. This sample case contains a complete Dupline bus system, ready to use, with selected components. In addition to a dimmer and a relay module, it is also fitted with a DHK encoder and a DTG test device. It is therefore excellent as a starter set for a first, small Dupline project.

#### Features

Dupline sample case for demonstration and training purposes, extensive equipment, e.g. dimmers, relay module, key signal sensor, light sensor, switching power supply and commissioning kit (handheld encoder and test device), wired, preprogrammed and fully functional

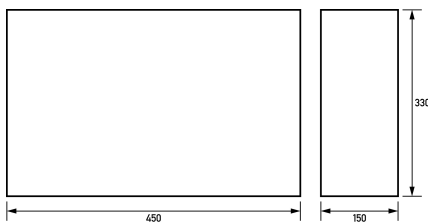

#### Applications

The sample case is suitable for presenting the Dupline system to customers, training on the system, use as a starter package for a first Dupline project
