end caps EK-3/10/16

for busbars which can be cut to length

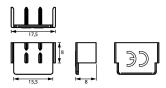

Function

Covers and caps enable retrospective protection against live connections. End caps from the "EK" series allow the covering of open ends of Do and RCCB/MCB busbars that can be cut to length.

Technical data

Series	EK-3
Accessories design	shield for end piece
Housing shape	triangular
Number of poles, rail	3
Suitable for rail cross-section	10 mm², 16 mm²
	General data
Storage temperature	-40 °C 70 °C
Installation type	Device extension
Housing material	thermoplastic
Width	15.5 mm
Height	8 mm
Depth	17.5 mm
Weight	0.001 kg
Design requirements/Standards	EN 60664-1
