## DGA 1

Article number 09501190

[Internetlink](#)

### Function

Optional devices apply as accessories to the main product classes. The DGA 1 is a GSM antenna for the DKG 21-GSM channel generator. With this component (and a corresponding SIM card), the DKG is able to send and receive text messages. The antenna is designed for dual band operation (EGSM900 and GSM1800) and has a magnetic base in addition to the FME plug adaptor.

### Features

GSM antenna for DKG 21-GSM, dual band operation (EGSM 900 and GSM 1800), FME screw plug, magnetic base

### Mounting

upright mounting possible outside of the distribution board

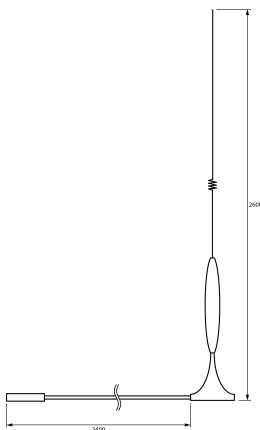

### Applications

The antenna is used in connection with the DKG 21-GSM where messages and switching commands should be sent and received by text message, such as in: isolated systems (sewage treatment plants, water supply systems, etc.), temporarily unused holiday homes for monitoring, industrial facilities for reporting faults

### Technical Data
